@DrDaveOrts

If you are not indigenous to this part of our North American then you are an immigrant. Science now says that it is not just plausible but probable that everyone immigrated across the bearing straight when it was a land bridge.

So, no, I'm not against immigration, not in the least, I am vehemently against everything about it that endangers our country.

Firstly Obama declared DACA an illegal a law with pen and phone, even after he said repeatedly dozens of times that "it's illegal, I can't just do that, we have laws."

Secondly, anyone who is listening to Democratic leadership regarding this important are listening to lies, and spin. When President Trump declared DACA illegal, he did it because he is a law and order president.

This is the United States of America, we've allowed the wicked self-serving Democratic party , yes wicked party to incrementally start to turn our beloved USA into a socialist haven. I'm willing to fight this in the public square of ideas and pray we don't have to fight in the streets. Why we as a nation must stop the garbage ideas from the left from becoming a socialist reality.

Whoever wants Scandinavian style laws or worse, should emigrate to another country. We could certainly make that available if they denounce their US citizenship and relocate out of the country within 3-6 months.

1. Deport All Illegals. I know, that is not the way you want to start> I believe it is the essential first step. Anything less sets a precedent that condones lawlessness and creates future issues.
2. Fix existing all legal immigration issues, with an the USA being the preeminent beneficiary.
3. All immigrants must be 21 years old or accompanied by an adult parent, grandparent, aunt, uncle, sister, brother with proof of relationship or certified verifiable legal document from country of origin, along with proof of citizenship of that country.
4. All immigrants medically examined, including a mental acuity test.
5. Must speak English or sign contract to learn to speak English.
6. Must have a legal citizen who is a financially adept to support immigrant until they have obtained their own ability to be self-sufficient.
7. All immigrants will be on probation until passing necessary checkpoints for citizenship which will determine their eligibility.

@DrDaveOrts

8. A financial stipend loan will be available and must be paid back after obtaining US citizenship or the citizenship will be revoked and person will be deported.
9. All potential immigrants must go to their government and provide documentation that they are in good standing and that they wish to emigrate from their country of birth to the USA.
10. Any immigrant in the process of getting citizenship who commit a felony will be immediately deported with no chance of returning and re-applying for 10 yr. minimum.

I encourage you to contact me with your thoughts, opinions, ideas, concepts and the law regarding how as a nation we are to move forward, with deep concern with our safety along with the ability of getting the best immigrants for our nation, which I believe will happen if we are strident with your policies.

Thank you,

—Dave
